

ZEALWAY

Class B Tabletop Steam Sterilizer

Main Features

- (1) Rapid sterilization procedures and efficient vacuum pump meet the Class B sterilization effect
- (2) CE marked and abide by EN13060 directive
- (3) 9 automatic sterilization procedures, 1 B&D test procedure and 1 vacuum test procedure
- (4) Special sterilization programs for packed instruments, porous material, and articles with lacunar
- (5) Automatic water feeding
- (6) Smart pulse vacuum deep drying function, user can choose independent drying function or drying after sterilization
- (7) Available to printer and USB
- (8) Easy installation
- (9) Simple operation, one touch design
- (10) Careful selection of accessories, ensuring the high quality

Safety Guarantee

- (1) Smart door locking system prevents a cycle from starting unless the door is properly locked
- (2) Automatic double locking system prevents the door being opened if there is pressure in the chamber
- (3) A safety thermostat prevents over heating in the chamber
- (4) Double overheating prevention system with automatic power shutdown indicator and alarm
- (5) Unique intelligent system to ensure consistent temperature and pressure

Technical Specification

Model	GT14	GT18	GT24
Capacity	14L	18L	24L
Dimension(L*W*H)	600x530x400	600x530x400	750x530x400
Chamber dimension(Dia*H)	230x360	230x460	230x610
Rated power	220V 50Hz/60Hz		
Working environment	5°C-40°C, relative humidity 10%-85%		
Chamber material	SUS304		
Working temperature	105°C-135°C		
Preset range of sterilizing time	1-300 min		
Preset range of drying time	1-300 min		
Pulse frequency	1-3 times		
Exhausting mode	Fully automatic internal discharging		
Water container capacity	7L		
Range of pressure gauge	0-0.6Mpa		
Rated working pressure	0.24Mpa		
Working Mode	Cloth Mode, instrument mode, liquid mode, Prion mode, BD testing mode, pump testing mode		
Safety Device	Self-induction interlocking device, locking check system, dry scorch protection system, water level watcher, overpressure protection, safety valve, over temperature protection, over current and short circuit protection, leakage protection device, anti-scald protection, automatic troubleshooting system		
Standard Accessories	Sterilizing box, water plate		
Optional parts	Printer, sterilizing plate set(plate*3, plate shelve*1, handle*1), printing set
